

# Programação Java

## Exercícios – Swing

1. Crie uma classe `EdicaoContato` que estende de `javax.swing.JFrame` com a seguinte aparência:

A screenshot of a Java Swing window titled `EdicaoContato`. The window has a standard Mac OS X title bar with a red, yellow, and green window control icon on the left and maximize, minimize, and close buttons on the right. The main content area has a light gray background. It features three labels on the left: "Nome:", "E-mail:", and "Celular:". To the right of each label is a text input field. The "Celular" field contains the text "10". At the bottom of the window, there are two buttons: "Cancelar" and "Salvar".

2. Crie uma classe `Contatos` que estende de `javax.swing.JFrame` com a seguinte aparência:

A screenshot of a Java Swing window titled `Contatos`. The window has a standard Mac OS X title bar with a red, yellow, and green window control icon on the left and maximize, minimize, and close buttons on the right. The main content area has a light gray background. On the left side, there is a text area containing two lines of text: "jose silva - jose@email.com - 123456789" and "maria lima - maria@email.com - 987654321". On the right side, there are five buttons stacked vertically: "Adicionar", "Editar", "Remover", "Pesquisar", and "Sair".
